Long-Term Care Ombudsman Program Complaint Codes

A complaint is about a problem of commission or omission.

Each case may have more than one complaint. However each problem will have only one code. Use only one category for each type of problem (i.e., do not check both A.3 and D.26 for the same staff behavior - determine which category is most appropriate to the particular problem).

Residents' Rights

A. Abuse, Gross Neglect, Exploitation

Use categories in this section only for serious complaints of *willful* mistreatment of residents by facility staff, management, other residents (use category 6) or unknown or outside individuals who have gained access to the resident through negligence or lax security on the part of the facility or for neglect which is so severe that it constitutes abuse. Use P.117 and P.121 for complaints of abuse, neglect, exploitation by family members, friends and others whose actions the facility could not reasonably be expected to oversee or regulate.

For **all** categories in this part, use the broad definitions of abuse, neglect and exploitation in the Older Americans Act, which is almost identical to that in regulations for nursing homes participating in the Medicare and Medicaid programs (42 CFR 488.301):

The term *abuse* means the willful (A) infliction of injury, unreasonable confinement, intimidation, or cruel punishment with resulting physical harm, pain or mental anguish; or

(B) deprivation by a person, including a caregiver, of goods or services that are necessary to avoid physical harm, mental anguish, or mental illness. (Older Americans Act, Section 102 [13])

The term (financial) exploitation means the illegal or improper act or process of an individual, including a caregiver, using the resources of an older individual for monetary or personal benefit, profit or gain. (Older Americans Act, Section 102[24])

In addition to the above broad definitions, use the definitions for specific categories below from the Centers for Medicare and Medicaid Services (CMS) *Interpretive Guidelines, section 483.13(b) and (c)*. The guidelines are available at https://www.cms.hhs.gov/manuals/Downloads/som107ap_pp_guidelines_ltcf.pdf See page 61 and surveyor guidance at deficiency tags F223 to F226.

Use resident-to-resident physical or sexual abuse (A.6) only for *willful* abuse of one resident by another resident, not for unintentional harm or altercations between residents who require staff supervision, which should be coded in category I-66, "Resident conflict, including roommates." (For example, a confused resident who strikes out is categorized at I.66 and an alert resident who strikes out is A.6.)

(Use D.26 for less severe forms of staff rudeness or insensitivity; use M.100 if staff is unavailable, unresponsive to residents.) Psychological or mental abuse includes, but is not limited to, humiliation, harassment, threats of punishment or deprivation. Involuntary seclusion means the separation of a resident from other residents or from his/her room against the resident's will or the will of the resident's legal representative. Emergency or short term monitored separation is not considered involuntary seclusion if used for a limited period of time as a therapeutic intervention to reduce agitation.

4. Financial exploitation (use categories in Section E for less severe financial complaints)

The illegal or improper act or process of an individual, including a caregiver, using the resources of an older individual for monetary or personal benefit, profit or gain.
