Effective or Ineffective Documentation?

1. “When I entered the facility the activities director stopped me and was so excited about the upcoming fair she is organizing for the residents. She invited me to the event. Since Sharon has a complaint about activities, I brought it up to Kim and she said it was resolved.”

2. “I have followed up with resident, Ralph, two times and both times he seems uncertain of what he wants to do about moving home. I think he is being influenced by his son.”
3. “When entering White Oaks Assisted Living the morning of May 26, 2021, I saw several staff assisting residents out of the building. I spoke with resident Mel Jackson, who said they think the fire alarm was pulled by a resident, but he did not know which resident. Another resident named Rosalee said she smelled smoke on the first floor, but no alarm went off. The manager, Bill, came over and said they were “looking into it” then immediately went back into the building. I talked with other residents outside who all said they aren’t sure what is going on and did not hear the fire alarm. They expressed concern about a potential broken alarm and asked if I would look into it. I stayed outside of the building and after about 10 minutes, the fire trucks arrived. I observed the situation for another 15 minutes and saw no other concerns. I will call the manager this afternoon.”
Fact or Opinion?

1. “Of course, the manager yelled. He always gets mad when I bring problems to him.”

2. “The manager raised his voice saying he was tired of constantly getting complaints from the LTCOP.”
Objective or Subjective?

“Travis stood up from his chair, shook his head, and said he needed a break. He left the room and walked down the hall.”
Objective

“Travis became angry and stormed out of the room.”
Subjective

“Travis was anxious and tried to leave the facility.”
Subjective
Objective language describes behaviors & observations:
- hit, ran, cried, slept, did not speak, laughed, answered yes or no questions, did not sign the document

Subjective language labels behaviors & interjects opinions:
- depressed, confused, inconsiderate, emotional, dirty, angry, refused care, hostile, happy, sad
