Basic Principles, Verifying

- Verifying Complaints
 - Ombudsmen
 - Always attempt to verify complaints;
 - Work to resolve a complaint, whether it is verified or not.
- Definition of Verified
 - It is determined after work (interviews, record inspection, observation, etc.) that the circumstances described in the complaint are generally true.

Basic Principles, Disposition

- Principle of 1:1
 - One disposition code for each complaint, and
 - Each complaint has one disposition code.
- How to choose a disposition code.
 - Follow the direction of the resident.
 - If resident cannot give direction, look to the resident's representative or to the complainant to determine the resolution if consistent with the rights and interests of the resident.
- Disposition codes record outcomes, not activities.

Basic Principles, Closing

- Close a case when
 - None of the complaints require further action from the ombudsman and
 - Every complaint has been assigned a disposition code.

Disposition Codes

Use disposition codes for *closed* cases.

- Legislative or Regulatory Action Required
 - Policy, regulatory or legislative change needed to resolve.
- Not Resolved
 - Problem not corrected or
 - Change that was made was not to satisfaction of resident in any way

Disposition Codes

- Withdrawn
 - Complaint withdrawn at the request of resident, complainant, or discontinued by the ombudsman.
 - If significant portion was resolved prior to withdrawal, record as *Partially Resolved*.

Disposition Codes

- Referred for resolution and
 - D.1: Final disposition not obtained
 - D.2: Other agency failed to act
 - D.3: Agency did not substantiate
- No action needed or appropriate
 - Determined after ombudsman investigation
 - Examples:
 - Family complains, resident says there is no problem.
 - Investigation indicates no change or further action is needed.
 - Resident dies or moves and complaint is no longer relevant.

Disposition Codes

- Partially resolved
 - Complaint addressed in part to the satisfaction or the resident or complainant, some problem remained.
- Resolved
 - Resident is satisfied with the outcome.

Quiz

- Answer the following questions.

- Who is the complainant?
- What is the complaint code?
- Is the complaint verified?
- What is the disposition code?

- Tips

- Don't over-think the scenarios.
- Base your answers on the facts presented.
- Focus on coding, not ombudsman practice and skills.

A nursing home resident complains that the facility is keeping her money. “They’re ripping me off,” she states emphatically. She uses the balance of her PNA to have her hair done and purchase a few personal items.

You report back to the resident. She forgot that she was paying for the phone out of her PNA. She’s glad you straightened things out. She really likes having the phone because she can keep in touch with her children and her friends.
