

National Ombudsman Reporting System (NORS)

Training: Part 1

Case, Complaint, Complainant *AND* Information and Assistance Quiz

REMINDER: Use the [NORS tables](#) developed by the Administration for Community Living/Administration on Aging with these training materials when indicated. The NORS codes and definitions used in these materials are taken from ACL tables 1-3 and are not to be modified.

TIPS

When reviewing each scenario below, remember:

- A case must have one or more complaints brought to, or initiated by, the Ombudsman program.
 - The complaints must be made by or on behalf of one or more residents and the complaint(s) must be related to the health, safety, welfare, or rights of the residents.
 - Each complaint requires Ombudsman program investigation and resolution on behalf of one or more residents of a long-term care facility. States that have expanded their Ombudsman program services to other settings may choose to report complaints as "other setting."
- Directing an individual to contact another agency for help does not constitute a case, it is an instance of providing information and assistance. Count Information and Assistance as an activity. See the "Basic Principles" for more information.
- Use *NORS Table 1: NORS Parts A, B, and C – Case and complaint codes, values and definitions*, as you answer the quiz questions.

DIRECTIONS: For each scenario, indicate the following:

- Is it a case or an instance of information and assistance?
 - If it is a case,
- how many complaints are there?
- who is the complainant?

For purposes of this training, unless otherwise indicated, assume that the resident gives consent to investigate.

2. You visit Mrs. Jones, she tells you they are still bringing her pureed food, even though her doctor said she could start eating regular food. You notice her call bell is broken. She wants your assistance in resolving these problems. You speak to the Director of Nursing (DON) about the call bell, and she promptly fixes the bell. You attempt to talk to the dietician about the pureed food, but she is not available until the next morning. You leave Mrs. Jones but tell her that you will check back with the dietician and will follow up with her on the results and to ensure that the call bell is still functional.

9. Mr. Brown's daughter and guardian, Alice, calls the Ombudsman program, concerned that her father is eating all his meals in his room, instead of in the dining room. You visit Mr. Brown, who seems despondent and is unable to express his wishes. You speak with the Director of Nursing (DON) about Alice's concern; the DON says staff should be taking Mr. Brown to the dining room and that she will discuss the problem with two new nursing assistants and will put a note in Mr. Brown's chart. 12. Mrs. Lee's daughter called you to complain that her mother would like to take a bath more often than once a week. On December 15th you go to Hilltop Haven to visit Mrs. Lee. On your way to Mrs. Lee's room you notice that there is dirty laundry on the floor in the hall and that the hall is dark because several lights are not working. When you visit Mrs. Lee, she says that she wants to be bathed more often than once a week.

After you visit Mrs. Lee, you drop by to see Mrs. James. She tells you that they stopped her physical therapy (PT) and she does not know why. She complains that the sliding track for the privacy curtain is broken, so it does not close all the way. You investigate both complaints. You resolve and close the PT complaint within the week. You learn that the facility has tried to order a new track, but it's on back order. You keep the complaint open until the new track is installed. You go back to visit Mrs. James in January. She tells you that they are installing the track the next day. She also tells you that she just received a notice from the facility saying that she will have to switch to the facility pharmacy even though it may cost more than the pharmacy she has been using for the past three years. You tell her you'll check it for her.

How many **cases** do you open? (Identify each case by the complainant and the number of complaints.)
