

National Ombudsman Reporting System (NORS) Training: Part 2

Complaint Coding Beyond the Basics Quiz

REMINDER: Use the [NORS tables](#) developed by the Administration for Community Living/Administration on Aging with these training materials when indicated. The NORS codes and definitions used in these materials are taken from ACL tables 1-3 and are not to be modified.

DIRECTIONS: Each person taking the quiz needs to have a copy of the **NORS, Table 1: NORS Case and complaint codes, values, definitions**, and **NORS, Table 2: Complaint codes and definitions**. For each scenario below, give the number of cases, number of complaints, complainant, perpetrator if applicable, and the primary complaint code for each complaint. Use only one complainant per case and only one complaint code for each complaint. For purposes of this training, assume that the resident gives consent to investigate if not otherwise indicated.

When reviewing each scenario below, remember:

- a. A **case** must have a minimum of one complaint.
- b. A **complaint** is an expression of dissatisfaction or concern brought to, or initiated by, the Ombudsman program which requires Ombudsman program investigation and resolution on behalf of one or more residents of a long-term care facility.
- c. A **complainant** is an individual (i.e., resident, resident representative, family, staff) who requests Ombudsman program complaint investigation services regarding one or more complaints made by, or on behalf of, residents.
