

National Ombudsman Reporting System (NORS)

Training: Part 2

Complaint Coding Quiz Answer Sheet

REMINDER: Use the [NORS tables](#) developed by the Administration for Community Living/Administration on Aging with these training materials when indicated. The NORS codes and definitions used in these materials are taken from ACL tables 1-3 and are not to be modified.

DIRECTIONS: Each person taking the quiz needs to have a copy of the **NORS, Table 2: Complaint codes and definitions**. If questions arise regarding the Part II quiz answers, refer to the **Examples and Reporting Tips** column of **Table 2, Complaint codes and definitions** for additional information. For each complaint category, select the complaint code that best describes each scenario. For purposes of this training, assume that the resident gives consent to investigate if not otherwise indicated.

A. Abuse, Gross Neglect, Exploitation

Use codes for complaints of abuse, gross neglect, and exploitation. Identify a perpetrator for each of the A codes.

The perpetrator is the person(s) who appears to be the cause of the abuse, neglect, or exploitation. There can be multiple perpetrators for each complaint.

undergarments had been removed. The staff member saw a nurse leaving the resident's room.

- A03** **Staff** 5) A resident cries as she tells you that staff took her photo when she was in the bathroom and said they would post it online if she doesn't quit pushing her call bell.

The provider tells the hospital they will have to find another home for the resident and refuses to pick up the resident.
- C02** 3) A nursing facility sent a resident to another facility while she awaited her discharge appeal hearing.
- C01** 4) When a resident moved into the residential care community, the home required her to sign a document stating that she would have to move out immediately if she is not approved for the state's home and community-based services program. The state has a 30-day discharge notice requirement regardless of payment source or length of time in the facility.

D. Autonomy, Choice, Rights

- D09** 5) Residents are not allowed to smoke after 5:00 pm because a staff member is not available to monitor them on the front porch.
- D05** 6) Several residents tell you that they have made numerous reports to the nursing facility administrator that there are ants in residents' bedrooms, but nothing appears to have been done about it. They are unhappy that the administrator is unresponsive and want your assistance to get the administrator to address the issue.

The issue is that the administrator is not responding to complaints. If the complaint was only about ants in residents' bedrooms, the complaint would be coded, I05, Housekeeping, laundry and pest abatement.

It also includes range of motion and exercise programs. After the staff stopped assisting the resident into his wheelchair daily, the resident lost the ability to straighten his legs. Although F01, Accidents and falls, or F07, Symptoms unattended, might seem appropriate, the complaint was that the resident's wrist hurt, and the nurse did not arrange to send her to the emergency room for an x-ray. The resident was clear in her request and the nurse disregarded the request.
