Introduction to BOALTC

- The Board on Aging is an independent State Agency that helps protect the rights of long term care consumers as a healthcare oversight agency.
- We are guided by a policy making 7 member board appointed by the Governor confirmed by Senate.
- We have 3 programs: Ombudsman, Volunteer and Medigap helpline.
- ICR Advocate: Intake, Council & Referral
- 1-800-815-0015
- [http://longtermcare.state.wi.us](http://longtermcare.state.wi.us)
MISSION STATEMENT

The mission of the Board on Aging and Long Term Care is to advocate for the interests of the state’s citizens in need of long term care.

BOALTC serves the individual; monitors the development, implementation and outcome of long term care policy; makes recommendations, stimulates public interest and provides education regarding universal issues affecting long-term care.
What Volunteer Ombudsmen Do

- Empowering residents to speak up for themselves.
- Addressing residents' concerns on not getting showers/baths as scheduled.
- Addressing residents not getting beverages, especially water.
- Getting wheelchairs repaired and returned to residents in a timely manner.
- Making sure call lights are within resident's reach and that they actually work.
- Encouraging the staff to take resident's personal requests seriously.
- Tracking resident's concerns weekly.
- Making sure call lights are answered in timely & comforting manner.
- Addressing staff on wearing name tags.
- Addressing staff on knocking on doors before entering rooms.
- Addressing issues of wheelchair, room, and bathroom cleanliness.
What Volunteer Ombudsmen Do

- Attending resident and family councils.
- Addressing mealtime concerns such as temperature, taste and timely service.
- Meeting new residents and explaining the ombudsman program services including the volunteer ombudsman program services.
- Reminding staff about common courtesy toward the residents.
- Not only continuously reporting short staffing, but what is NOT getting accomplished due to the shortage of staff.
- Making someone’s day by involving them in a conversation and listening to their ideas, concerns, and thoughts.
- Communicating with Facility staff to increase problem resolution
- Addressing residents and family members concerns of stolen items.

The presence of a Volunteer Ombudsman makes a difference in the daily lives of residents in LTC facilities!
Quotes from former Volunteers

• “WOW! The Volunteer Program and training are much more than I had anticipated. What an awesome responsibility you have given each of us. The new team that you have trained consists of a fine group of people. I look forward to learning, growing, and giving under your direction.”
  
  Barb James, Dane County

• “I have always felt joining the Wisconsin Volunteer Ombudsman Team was one of the best ideas I ever had! It truly is a dedicated group.”

  Diane Stardy, Racine County

Case Scenario: Charlie

Charlie had a CVA (cerebrovascular Accident-stroke) leaving him with left-sided weakness and aphasic. (loss of ability to use or comprehend words)

Charlie was competent and able to use his call light.

It was Ash Wednesday morning...

Charlie was suffering from constipation and earlier in the week, was given prune juice with every meal and along with that a fiber laxative. Still no relief...So the night nurse gave Charlie a suppository right before her shift ended (Tuesday). Charlie was starting to feel some “action”, and so he put his call light on, praying that someone would come into the room and help him soon.

45 minutes later a CNA came into the room, however, it was too late, as the suppository worked

Charlie was literally covered with B.M. The CNA came into the room and said “Oh does it stink in here!”, She pulled off his sheet leaving him totally exposed to the hallway. She did not pull the privacy curtain, and the door to his room was wide open

She turned off his call light, said, “I will be right back, I have to get some help”
Charlie

The CNA, however, did not get help, she began picking up breakfast trays before dietary got on her back...

Charlie was beside himself...he went to put his call light back on and it was not within his reach after the CNA turned it off.

Now Charlie was really mad...He started to thrash around in his bed moaning, hoping to get staff’s attention.

Many people were walking past his room, looking in, but no one stopped to help him.

Charlie was horrified, angry and crying, and continued to thrash about all covered with B.M. when in walked the Priest who conducted the weekly church services. The Priest walked up to Charlie, did not say a word, put ashes on his forehead, and proceeded to go onto the next room.

FYI: The ombudsman was in doing an investigation and the facility was currently in survey.
Case Scenario: Daniel

Daniel is in his 80’s and he has had a stroke which left him with impaired swallowing ability and he has aphasia.

Daniel drools incessantly, he cannot help this condition.

Daniel is competent and has no problems understanding.

Daniel eats in the main dining room where most of the residents are able to eat independently with minimal assistance.

Daniel is able to feed himself, and while he eats he continues to drool. The saliva is thick, slimy and literally hangs from his mouth even more so during the course of the meal.

Occasionally, visitors would comment on the sight of Daniel during mealtimes, however, none of the other residents said anything or were even subtly affected (for example no changes in appetite leaving the table, eating in their rooms because of him, etc...) 

That is until new resident Noreen started complaining quite vocally and to anyone who would listen about the “disgusting sight” of Daniel.
Case scenario: Roommates

Tillie and Thelma were roommates. Tillie was president of the resident council and Thelma was the vice president. They got along very well with each other and did very few activities with out each other. One Morning the Professional Ombudsman happened to be in the facility doing an investigation.

The Ombudsman frequently visited and knew Tillie and Thelma quite well, so as long as she was in the building decided to stop in and say “Good Morning”.

The door to the room was open and before the ombudsman could “knock” Tillie saw her and waved her to come on in.

There sat Tillie and Thelma, each actually sitting on their own commode with their bedside table in front of them happily eating their breakfast.
My granddaddy once told me that “When you are trying to communicate with someone, just remember that God gave you TWO ears and ONE mouth for a very good reason”! (KP)
COMMUNICATION

- We always ask residents permission to talk with staff about their concerns.
- We always empower them to speak up for themselves.
- Always call your Volunteer Coordinator about issues you feel you need help with, questions you have about anything, and when you will not be able to make a visit for more than 2 weeks in a row. And to catch up...we want to hear from you...Coordinator’s will direct your questions to the Professional Ombudsman.
COMMUNICATION

- Always introduce yourself, speaking clearly and slowly
- Make eye contact
- Bend down to their eye level
- Smile!
- Wait for a response
- Say Hi and tell them why you are visiting today
- If you are unsure of how to communicate with a resident please ask the staff how they speak with the resident’s.
Communication

- Give them a genuine compliment...”Hi Joe, it is so nice to see you today, you look nice!”
- Ask the resident a simple question...”How are you doing today?”
- Make note of personal belongings, even their appearance: ie: “I like your Packer shirt...I am a fan of the Packers too!”
- Please be patient and **Listen** to what they say and how they say it.
Volunteer Ombudsman Monthly Report

More Monthly Report

- Please highlight your experiences this month. Include topics discussed with facility staff and their response, and any repeat, chronic or prolonged issues:

  Example: I met with a new resident on Monday, she said she did not get her dinner that night until very late, and her call light was not where she could reach it...it took 60 minutes for staff to help her. I asked if I could share this with Social Worker. And asked resident if she felt ok talking to staff about this...she said yes to both, I reported to Social Worker, will follow up next visit.

- Issues raised by residents/families and/or at family or resident councils:

  Example: I attended resident Council meeting, 14 residents were there. The topic was a special meal for the Labor day Holiday Picnic, and the residents wanted to have coffee available before each meal was served to them...see attached minutes.
Check every concern that you addressed this past month. Indicate a “0” next to the check if there are problems remaining for any issue. For any topic identified with an asterisk, (*) report the incident to the regional ombudsman IMMEDIATELY.

During my second month of college, our professor gave us a pop quiz. I was a conscientious student and had breezed through the questions until I read the last one:

"What is the first name of the woman who cleans the school?" Surely this was some kind of joke. I had seen the cleaning woman several times. She was tall, dark-haired and in her 50s, but how would I know her name?

I handed in my paper, leaving the last question blank. Just before class ended, one student asked if the last question would count toward our quiz grade.

"Absolutely," said the professor. "In your careers, you will meet many people. All are significant. They deserve your attention and care, even if all you do is smile and say "hello."

I've never forgotten that lesson. I also learned her name was Dorothy.
TWO MEN MET ON THE BEACH

“Good evening friend. What are you doing?”

“I'm throwing these STARFISH back in the ocean. If I don't, they'll die up here.”

“There must be thousands of STARFISH on this beach. You can't possibly get to them all.

You can't possibly make a difference.”

He SMILES, picked up another STARFISH and threw it into the sea.

“Made a difference to that ONE!!!”
